

American Recovery and Reinvestment Act – Transportation and Transit Opportunities

American Recovery and Reinvestment Act (ARRA) transportation and transit programs will invest in jobs related to modernizing and expanding transit system capacities including jobs enabling Amtrak to upgrade its tracks and to add and modernize cars and engines. ARRA will also invest in jobs related to improving airport safety, expanding airport capacity and building, rehabilitating and improving the safety of roads, highways, bridges and ports.

The U.S. Department of Transportation Recovery Plan major programs are profiled below. For up-to-date information visit the [Department of Transportation Recovery Website](#).

- \$8B [Capital Assistance for High Speed Rail and Intercity Passenger Rail Service](#)
To lay the foundation to modernize the transportation system by upgrading the reliability and service of conventional intercity passenger rail and, longer term, building an efficient, high speed passenger rail network.
- \$1.3B [Capital Grants to the National Railroad Passenger Corporation](#)
To improve and expand Amtrak's fleet, track, bridges, tunnels and signals, as well as improve the safety and security of its facilities.
- \$750M [Capital Investments Grants](#)
For new fixed guideway transit systems and extension of existing transit systems.
- \$200M [Airport Facilities and Equipment Upgrades](#)
For modernizing and improving air traffic control and airway facilities, equipment and systems.
- \$750M [Fixed Guideway Infrastructure Investment Program](#)
For modernization of existing fixed guideway systems.
- \$1.1B [Grants in Aid for Airports](#)
For improvement and development projects that enhance airport safety, capacity and security.
- \$27.5B [Highway Infrastructure](#)
To augment current investments authorized by SAFETEA-LU to accelerate completion of highway infrastructure projects planned or already underway.
- \$1.5B [Supplemental Discretionary Grants for a National Surface Transportation System](#)
To support major capital infrastructure investments for highways, transit, aviation and ports.
- \$100M [Supplemental Grants for Assistance to Small Shipyards](#)
For capital and infrastructure improvements at small shipyard facilities.
- \$6.9B [Transit Capital Assistance](#)
To fund transit needs in urbanized and non-urbanized areas, states, and Indian tribes.

Addressing Economic Stimulus Priorities

Avaya delivers products and solutions that contribute to the success of projects related to transportation and transit infrastructure improvements, travel safety enhancements and easing traffic congestion.

Avaya Products and Solutions Supporting Transportation and Transit Improvement Programs

For the Transportation and Transit Stimulus Programs, Avaya offers products and solutions that have been deployed and trusted by Transportation Departments and Transit, Port and Airport Authorities nationwide. Avaya helps modernize communications and enable applications that improve transportation services and make travel safer, more efficient and less congested.

- [Avaya Aura™](#) a high performance, energy-efficient extensible IP communications platform for:

- Intelligent Transportation Systems (ITS)
- Airports, ports, fixed guideway transit modernization projects
- Security and video surveillance applications
- Management and control applications

- Modernize airport and transit communications and enhance emergency preparedness by applying [Avaya Meeting Exchange](#) for “Crash Phone” application which greatly enhances emergency coordination and response.
- Augment Intelligent Transportation System capabilities by applying Avaya Notification Solution (ANS) for both emergency and non-emergency notification applications.
- [Avaya Unified Communications for Mobile Workers](#) enhances workforce mobility and productivity enabling remote and field workers to collaborate and share information.
- Avaya streamlines traveler access to travel and traffic information with [Avaya Contact](#)

[Centers](#) and [Avaya Self Service](#) for DOT 5-1-1 services and transportation and transit administration applications.

- Avaya enhances transportation-related public safety response by improving information sharing and eliminating gaps in radio communication. [Avaya Public Safety Solutions](#) integrate and extend communications across communication devices including land mobile radios.
