

Avaya Cloud UC Incentives

Free Handsets for Every User

Avaya Cloud Device Credit Promotion

Worried about the upfront cost to transition to cloud? Avaya has the answer!

By committing to a one-year contract term or longer, customers receive a credit for every user that can be applied to the purchase of an Avaya phone on their initial order.

The longer the term, the bigger the credit!

- 1-Year Plan: \$79.95 device credit per user (equivalent to J129 IP Phone)
- 3-Year Plan: \$239.95 device credit per user (equivalent to J169 IP Phone)
- 5-Year Plan: \$289.95 device credit per user (equivalent to J179 IP Phone)

Additional terms and conditions apply.

New US orders only that are booked and billed by September 30, 2019. Credits are based on the total purchase of all handsets (regardless of type) up to the pooled credit amount. Unused credits cannot be applied to future purchases or be refunded to the customer. Additional and future phone purchases will be at standard pricing on <http://www.avayamarket.com>. Phone credits are not available for month-to-month orders or trials. Customers who reduce the number of users by more than 20% over the first 6 months may be billed for the cost of the handsets associated with the removed users. Promotion may be modified or terminated without notice.

See your Sales Agent for details.
