Avaya Device as a Service

Put the Latest Communications Technology on Employee Desktops Without Impacting Your Cash Flow

If you are not using the latest communications technology on your employee desktops, you are falling behind. Now Avaya makes it easier than ever to empower employees with the award-winning Avaya Intelligent Experiences (IX) Devices. A large up-front capital outlay is no longer a barrier to accessing the industry's most powerful communication tools to increase employee productivity. Avaya Device as a Service enables customers to subscribe to use devices on a monthly basis. When combined with an Avaya cloud solution, this means one low monthly payment for both your cloud service and your smart devices. And there is always the option to cancel this service—which reduces your risk.

And Avaya's latest smart devices are platform agnostic—which means you can enjoy all the benefits of the Avaya IX Devices regardless of the UC platform or cloud service you are currently using.*

Key Capabilities at a Glance

Change the way your mobile, distributed workforce collaborates. Deliver an engaging experience for voice, video and mobility on virtually any device.

Subscription Flexibility: Purchase only what you need, when you need it.

Cancellation Options: You can always cancel the service, which reduces your risk.
