Avaya IP Phone J139

The Avaya IP Phone J139 provides a modern, connected, personalized experience for customers and addresses the need for secure, reliable voice communications for users within large enterprises and small and medium-sized companies. It is well suited for users that need only the most commonly used voice features. It provides a new level of simplicity in using features such as Hold, Transfer, Conference, Forward, and Call Park / UnPark.

Key Features and Benefits

• Delivers high definition audio that can increase productivity by reducing fatigue and provides easier-to-understand multi-party calls through the wideband audio codec in the handset and headset.

• Simplifies call control on the display using softkeys for everyday functions such as transfer, conference and forwarding; also makes it easy to perform everyday tasks such as quick access to recent call log (100 entries) / Aura Contact List (250 entries)1.

• Provides visual cues that can speed task management through 4 dual-color Red / Green LED buttons.

• Improves flexibility through support of a secondary Gigabit Ethernet port for a PC.

• The handset has built-in volume boost for hearing impaired to avoid having to purchase a separate amplified headset.
The Avaya IP Phone J139 is a multiline device with four red / green line / feature indicators around the color display. It is designed for business workers that need only the most frequently used features.

- Accommodates advanced unified communications solutions through Session Initiation Protocol (SIP).
- Supports reduced energy consumption and lower costs through Power-over-Ethernet Class 1 design with “sleep mode”.
